Test cycle		Application
C		Vehicles (except road vehicles) and industrial equipment.
	C1	Vehicles (except road vehicles) and industrial equipment with Diesel engine.
D		Constant speed
	D1	Generator, irrigation pumps
	D2	Gas compressors, generators with intermittent load, including generators for ships and locomotive applications (except main drive), cooling units, welding generators, Lawn care applications, chisels, snow-removal machinery, street cleaner.
E		Naval engines
	E2	Highly stressed engines for ships with constant speed, without length limit for ships.
	E3	Highly stressed engines with propeller characteristics for ship propulsion, without length limit for ships.
